

LATTICE SEMINAR

Recent developments in Lattice QCD, Flavor Physics, the Unitarity Fit and all that.

Prof. Guido Martinelli
Università La Sapienza, Roma

15 May 2023, 14:30
Edificio U1, Aula Marchetti
Università degli Studi di
Milano-Bicocca

Recent progress of Lattice QCD calculations relevant for flavor physics will be presented within a general discussion of the status of flavour phenomenology and the unitarity fit within the Standard Model and beyond.

An outlook on future developments will also be discussed.
