

International Physics Exchange: Milano-Bicocca meets Hannover

May 27th 2021, 6.30-8.00 pm

The jDPG Hannover and AISF Milano-Bicocca committees organize an online outreach event about different physics research fields with speakers from the respective universities.

The Squeezing of Light

Manuel Schimanski, Leibniz University Hannover

Standard Model Physics and Beyond at CMS in Milano-Bicocca

Bianca Sofia Pinolini, University of Milano-Bicocca

An Ultracold Gas of Bosonic NaK Ground-State Molecules

Mara Meyer zum alten Borgloh, Leibniz University Hannover

Flavour Physics and Data Analysis in the Bicocca-LHCb Group

Simone Meloni, University of Milano-Bicocca

The Interface of Classical Gravity and Quantum Mechanics

Philip Schwartz, Leibniz University Hannover

An Overview of Low Temperature Experiments for Neutrino Physics

Luca Origo, University of Milano-Bicocca
