

**ANNEX A\*/1**

**Student** \_\_\_\_\_

**Student ID Number** \_\_\_\_\_

**Re:** University students carrying out activities involving exposure to ionising radiation.

The dissertation work will take place at \_\_\_\_\_  
and will be supervised by \_\_\_\_\_

It is hereby stated that Mr/Ms \_\_\_\_\_, who  
will work at this Company/Agency for \_\_\_\_\_(days, months) of the year \_\_\_\_\_  
shall be guaranteed:

- a) the identification of risks arising from the activity involving exposure to ionising radiation to allow prior radiation protection classification by the Qualified Expert of the Department of Physics (unless otherwise agreed)
- b) the provision, where necessary, of dosimetric monitoring and protection means, in relation to the risks to which he/she will be exposed
- c) planned medical monitoring (if otherwise agreed)
- d) information on internal safety protection regulations appropriate to the radiation risk
- e) information, in relation to the activities he/she will have to perform, on the specific risks to which he/she will be exposed, on the health protection rules, on the consequences deriving from the failure to comply with the instructions, and on the work implementation methods.

in addition, the Agency:

- shall ensure that the student complies with the internal regulations, uses adequate protective equipment, and carries out all work procedures properly
- shall provide periodically to the Department of Physics, as soon as available and upon completion of the activity in question, the results of the dosimetric and health monitoring activities.

Date \_\_\_\_\_

Signature of the Director in Charge  
and Stamp of the Hosting Agency
